A brief history of Nikaia Ice Cream:

The company was founded in 1981 with the purpose to supply and advice ice cream parlours manufacturing their own ice cream.

Thanks to its manufacturing skills and market knowledge, built up from experience from several ice cream parlours in both Paris and Nice, NIKAIA ICE CREAM quickly earned a reputation as a competent and businesslike firm. The company supplies high quality products and sound technical and marketing advice. We have a franchise scheme (LGM) for those starting out in the business and there are already several ice cream parlours around the world profiting from our services and knowledge. Quality recognition outside France is now such that export amounts to twice the sales figures for France. Our ideal location, in Saint Laurent du Var, close to Nice and not far from the Italian border facilitates import of ice cream products from Italy – the country of ice cream! Moreover, we are not far from Marseille and its large international sea port.
